What Kind of Stock Are You Raising?

Can You Afford to Handle Anything Less Than the Best?

In the minds of farmers and stock men who have seen our stock there is no question about the quality of the splendid animals in our breeding pens.

If you have not seen our horses and jacks it will pay you to make a trip to our barn. Angier and Lookout are two of the finest specimens of the Percheron you ever saw, and you will say so when you see them.

Inquiet, imported Percheron Stallion, recorded in Percheron Society of America No. 81864, American No. 69866. Color, Grey. Foaled April 15, 1908. Will mature to about 2500 pounds.

Lookout, No. 1795, recorded in the United States Horse Register incorporated under the laws of the State of Illinois.

Duke, No. 2765. Sire, Victor Jr. 878. Dam, Maude 1794. If you are raising mules breed your mares to a registered jack. Blood tells.

Dave, a fine black jack 15.1 high, of the famous Mammoth stock.

Service fee, to insure, \$15 for the horses and \$10 for the jacks.

METZGER BROS.

3 miles south and 8 east of Jasper, on the base line. Positively no business on Sunday.

No Insult Meant.
Frenchman (who wants a pass-out ticket, to attendant at theater)—Pardon, monsieur. Are you ze ticket-of-leave man?—Pearson's Weekly.

Check Your April Cough.
Thawing frost and April rains chill you to the very marrow, you catch cold—Head and lungs stuffed—You are feverish—Cough continually and feel miserable—You need Dr. King's New Discovery. It soothes inflamed and irritated throat and lungs, stops cough, your head clears up, fever leaves, and you feel fine. Mr. J. T. Davis, of Stickney Corner, Mo., "was cured of a dreadful cough after doctor's treatment and all other remedies failed. Relief or money back. Pleasant—Children like it. Get a bottle to day. 50c. and \$1.00. Recommended by H. F. Pitts, Jasper."

Government "Rakeoff."
Out of one pound of compound nickel and copper, costing about 23 cents, the government coins \$4.55 worth of five-cent pieces.

"Artificial Rain."
The shallow draft passenger steamers built by an English shipbuilding concern for river service in the tropics are equipped with "artificial rain." Up through the awning forming the roof of the upper cabin project two water pipes, each of which is fitted with a spray head. These fountains throw sprays of water over the awning, and the rapid evaporation under the hot rays of the sun keeps the cabins cool.—Popular Mechanics Magazine.

Bar Liquor in the Army, Too?

Brig. Gen. William C. Gorgas took office Monday as surgeon general of the army, succeeding Brig. Gen. George H. Torney, who died last December. He paid his respects to President Wilson, and as he left the White House told inquirers he was in sympathy with the prohibition of liquor in the navy and believed such an order

would do much good in the army. He added, however, that it was only a personal opinion and that he had not discussed it with other officials.

General Gorgas is the man who cleaned up the Canal Zone, and who by modern sanitation changed that country from a pestilence-ridden country to a place as safe to live in as Missouri. To him should be given much credit for the final completion of the Panama Canal project.

Remembered Instructions.

She was a little girl and very polite. It was the first time she had been on a visit alone, and she had been carefully instructed how to behave.

"If they ask you to dine with them," papa had said, "you must say, 'No, thank you; I have already dined.'"

It turned out just as papa had anticipated.

"Come along, Marjorie," said her little friend's father, "you must have a bite with us."

"No, thank you," said the little girl, with dignity; "I have already bitten."

Mannerly Girls.

A tall young man with a distinctly English bearing was pacing the front veranda at one of the fashionable hotels at Atlantic City not long ago. Suddenly he came to a stop, readjusted his eye-glasses and turned to an acquaintance who was standing by.

"Bah Jove!" said he, "all the girls around here smile at me."

"Well, that shows that they have some manners," quietly returned the other. "Anywhere else they would laugh outright!"—Illustrated Sunday Magazine.

THE TODD ALLERTON Breeding and Training Barn

E. I. LAUDERBAUGH, Prop.

A. B. RIGGS, Trainer

The following is a list of my stock for public breeding and terms for 1914. First I will say my horses are all registered under Rule One, as I do not think it pays to breed to grade stock.

TODD ALLERTON 34215, Record 2.12½

By Allerton 2.09½ who was the world's champion trotting stallion for 3 years and holds the world's record for sireing more trotters and racers in the list than any other horse. Todd Allerton's dam Loudeema Wilkes 2.14½ b Ashland Wilkes 2.17½ and her champion sire, who sired John R. Gentry 2.00½. A complete pedigree will be given any person on request which will show he is one of the best bred horses in the world. He is also a sire of speed, style and action, one of his colts having a race record of 2.11½ at 3 years

old. Another suckling colt winning first prize last year at Oklahoma State Fair. Todd Allerton is a handsome brown, 16 hands, weight 1250, will make the season of 1914 at \$25 to insure living colt, money due when colt is foaled, except mares outside of this territory must make settlement at time of service.

ROBERT REAPER 53179. Robert Reaper is a 4-year-old brown horse 15½ hands, weight 1100. His sire is Early Reaper 2.09½, his dam Clara H. Robert Reaper is a good individual and has the breeding on both sides to sire lots of speed and he has lots of speed himself. He will be worked on the track all this year as we think him a good fast race prospect. Come and see this good registered son of Early Reaper before booking your mares elsewhere. Terms: \$15 to insure living colt.

REX 71533 Rex is a 4-year-old Percheron, 17 hands high, weight 2000 pounds when fat. Rex has a pedigree on both sides as long as a good trotting horse, tracing back five and six generations on both sides in the French and American Percheron Registry. Rex's sire weighed 2200 and his dam 2100 which shows he is of large breeding. He has also proven a sure foal getter. \$15 to insure living colt.

JOHN L. SULLIVAN

is a large blue jack, 16 hands standard, of Maltese and Mammoth blood, 8 years old and pronounced by our best jack judges one of the best jacks in this part of the country. I have seen several of his colts and they are all first class mules. He was bred and raised in Kentucky and made two seasons in this country. He has also proven a sure foal getter. \$15 to insure living colt. It is my intention to have one or two more jacks in soon.

TERMS—My terms on above stock are money due when colt is foaled. Any mares changing hands or leaving neighborhood money becomes due at once and must be settled for. I will not be responsible for any accidents of my patrons, nor hold them for any on my stock. Bring your barren mares and hand ones to get in foal and let us try our scientific treatment on them as I succeeded in this manner in many cases last year. No breeding on Sunday.

Breaking and Training Establishment: Remember we break and train all classes of colts and horses with humane and kind treatment at reasonable prices.
